

**STATEMENT FROM DISCOVER PUERTO RICO REGARDING
CDC RECOMMENDATIONS**

Due to the rising levels of COVID-19 throughout the U.S. mainland and elsewhere, we recognize many travelers should stay home for the upcoming holiday, but research confirms they continue to plan future travel. We are inspiring responsible travelers to keep our Island in mind for their future travel plans while continuing to promote all restrictions and health and safety guidelines currently in place, <https://www.discoverpuertorico.com/info/travel-guidelines>, so that those who choose to travel here in the future will do so responsibly.
